Windows 10 Docker & GUI

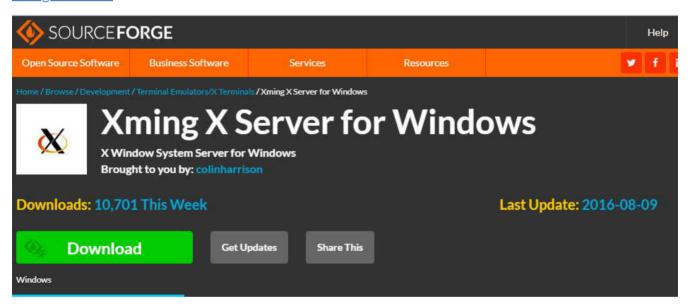

下载安装xming 启动powershell 运行docker 参考

win10安装docker启动容器调用图形界面报错。

Windows 10 Docker & GUI

下载安装xming

xming download

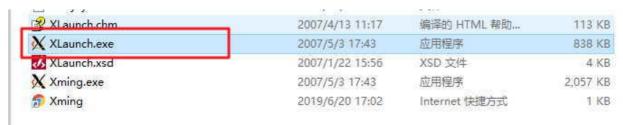

修改xming安装目录中的X0.hosts。

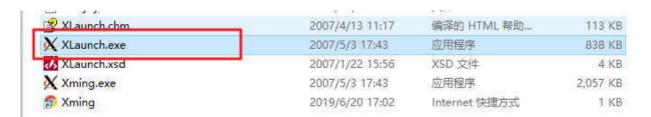

配置xming,新增本地ip,并保存。

localhost 192.168.31.224

启动XLaunch.ext

按如下配置:

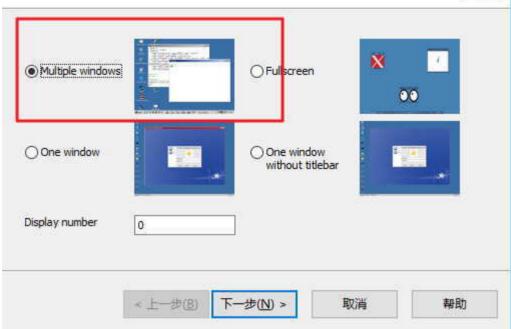

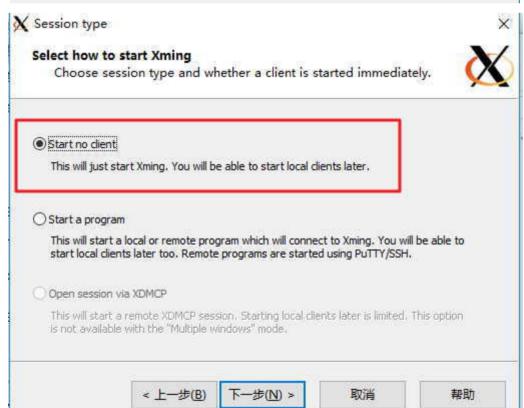

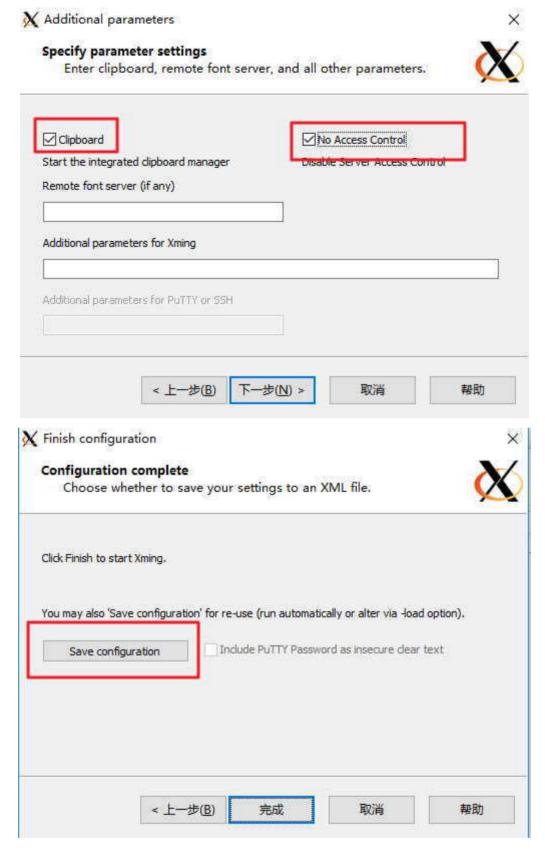

Select display settings

Choose how Xming displays programs.

保存配置到,%appdata%目录,例如我的C:\Users\x1c\AppData\Roaming

启动powershell

运行docker

docker run --rm -e DISPLAY=\$DISPLAY ...
